

Think about this question:

How can we, together, hold space for a practitioner community that feels connected & nourishes the practice of the people it touches?

On the 18 February, you'll have the opportunity to come together with like-minded practitioners, to co-create the future of the Art of Hosting community.

We invite all members of our community, including those who have been a part of the core team over the past few years, to a focussed conversation to create a framework for 2015.

Wednesday 18 February 2014, 1pm – 5pm
